

Name _____ Main Idea

The Dairy Farm

Part One

Milk comes from cows. Milk cows live on a dairy farm. Milk comes from mother cows. A baby cow is called a calf.

Part Two

Dairy farmers grow food for cows. They grow a lot of grass. The cows go outside to eat the grass. Cows also eat hay and cut-up corn and corn plants.

Part Three

Most farmers milk their cows two times every day. A dairy cow has to be washed clean before it is milked. The milk is kept in a big tank. Then a milk truck comes to take the milk away.

Write your answers in complete sentences.
Use your own paper.

1. Where does milk come from?
