

Make a thousand

A thousand is a pretty big number – I wouldn't mind £1 000 to spend!

Put numbers in the boxes to make 1 000

1. $400 + \square = 1000$

2. $700 + \square = 1000$

3. $\square + 200 = 1000$

4. $\square + 500 = 1000$

5. $300 + \square = 1000$

6. $800 + \square = 1000$

7. $\square + 100 = 1000$

8. $\square + 700 = 1000$

9. $200 + \square = 1000$

10. $900 + \square = 1000$

11. $\square + 600 = 1000$

12. $\square + 400 = 1000$
