

### Annotate the Picture

This is a great activity to assess the students' understanding of a concept. Often a picture that was used at a Visual Literacy assignment at the beginning of a unit can be used again at the end of a lesson or unit to show their understanding of a topic.

When annotating the picture students are required to use a certain amount of content vocabulary to show the thoughts or dialogue of the people in the image. As the teacher you can modify the amount of vocabulary words expected to be used as well as the amount of dialogue you want.
