Activities Section Brainstorming Worksheet

Fill out the following table in the same manner as you did for the Classes section.

In the tables below, brainstorm activities in which you have participated in high school that have STUCK OUT TO YOU (for good or evil! ③) or in which you realized something about yourself. Fill out the table below to the best of your ability right now. You can always go back and fill in things later.

GOAL: Try to have at least THREE activities as examples for each grade level.

Remember, Activities includes things you do outside of school, too.

Grade	Activity	What I learned or realized while doing this activity:
