

Examining Cause-Effect Relationships From Texts

Objective

Identify cause-effect relationships in texts.

Students will identify cause-effect relationships in texts. They will identify the cause and effect of an event or action. They will identify the cause and effect of a problem or situation. They will identify the cause and effect of a decision or action. They will identify the cause and effect of a change or transition. They will identify the cause and effect of a result or outcome.

Students will be able to identify cause-effect relationships in texts.
