

Dr. Seuss Bumper Words

Directions

The object of the Bumper Words is to "bump" as many words as you can. In each hat, there is room for five words, but one of them doesn't belong. One word does not rhyme with the other words.

Choose the word that does not rhyme and "bump" it to the next hat. If you bump the right word, four of the words in the next hat will rhyme and one will not rhyme. Keep bumping words until you reach the last hat. If you bump the right words, the last word you bump will complete the sentence at the end.
