

The Scientific Method

WORKSHEET

Question: Based upon your observations, identify the problem you wish to explore. Then ask a clear, specific, testable question.

Hypothesis: Make a prediction or your best guess, as to the solution or answer to your question.

Procedure: Plan the materials you will need and the steps you will take to test your hypothesis.

Materials: (list)

Steps:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.

Results/Conclusions: Record the results of your experiment.
