Measuring Mass Activity

Estimate the mass of the following common classroom objects. Circle either g or kg and then make an estimate of the object's mass. Finally, measure and record the object's actual mass.

Feeling clever? Calculate the difference between your estimate and the actual measure.

Object	Estimate	Actual	Difference
	_____ g	_____ g	
	_____ g	_____ g	
	_____ g	_____ g	
	_____ g	_____ g	
	_____ g	_____ g	
	_____ g	_____ g
