

CONTENTS OF UNITS

The **BIBLE STUDY GUIDE FOR ALL AGES** consists of four units (four years) of study. Some Old Testament and some New Testament lessons are studied each year so that students will have an opportunity to study great spiritual truths such as faith, love, salvation, worship, the church, sin, etc. in each unit.

The studies begin with three young men -- Joseph, Daniel, and Jesus -- about which nearly everyone has some knowledge. These studies provide the foundation for future learning experiences.

The units are designed to review old information, add on new information and encourage application. Review (transition) lessons promote continuity. Less study time has been devoted to poetical and prophetic books.

Some sections, such as Jesus' earthly life, are studied in logical segments, rather than en masse so that events can better be categorized in the student's mind. In studying Paul's journeys and letters, a journey is interrupted when he wrote a letter to study that letter in the context of its writing. Likewise, many Old Testament prophets are studied as they appeared during the divided and conquered kingdoms.
