

Reading Resources for Special Education Students

Grade Level	Format	Subject	Title	Ranking	Evaluation Comments	Location
Spanish 1	Web page	Culture	Don Quijote	A	This website is a great resource for Spanish students. All levels of students will benefit from this site, it contains many culture points and information, as well as links to other spanish websites.	Online Resource
Spanish 1	Book	Grammar	Avancemos by McDougal Littlell	B	This textbook is a pretty good source for beginning level Spanish students. I feel as though it has a great representation of the Spanish culture, as well as a great vocabulary list. The grammar points seem a little vague to me for a student who has little or no prior knowledge in Spanish.	Personal Library
AP Spanish	Book	Literature	Cien Años de Soledad by Gabriel García Márquez	A	This novel by Márquez is considered one of the best of all time, in all languages. It is a great representation of Spanish literature and culture. It is a more difficult book to read, so I have it suggested for upper level AP students.	Personal Library
Spanish 1	Book	Grammar	501 Spanish Verbs	A	The 501 Verb book is a great way for students to find different verbs and their conjugations. It is a good resource for beginning students to increase their level of comprehension and writing ability.	Personal Library
