

### **Exercise 1**

> Fill the gaps with the correct numbers

1. .... + trois = onze
2. cinq + ..... = sept
3. dix - ..... = quatre
4. un + ..... = neuf
5. douze - ..... = cinq
6. six + ..... = douze
7. sept + huit = .....
8. dix-neuf - six = .....
9. trois + treize = .....
10. dix-sept + ..... = vingt

### **Exercise 2**

> Complete the words with the missing letters and write the figures next to it, ex: treize = 13

- v- - - - -
- q- - - - -
- h- - - - -
- - - - -
- d- - - - -

### **Exercise 3**

a) Look at the example and try to work out the following numbers in French.

- 25 = vingt-cinq (20+5)
- 22 = .....
- 29 = .....
- 27 = .....

b) Do the same as above. Knowing that 30 = trente, work out the following numbers in French.

- 33 = .....
- 36 = .....

Look up in your dictionary for the words

- forty = .....
- fifty = .....
- sixty = .....
