GOALS AND OBJECTIVES

These goals and objectives are for the groups that are currently operating. These provisions should also be added into the 2024-2025 and 2025-2026. It is important to have the groups organized around the community issues that are most important to the community and to have the groups working together to address these issues. The groups that are currently operating should be organized around the following issues: **Health, Safety and Community Issues.**

1. **Health and Safety:** This includes issues such as mental health, physical health, and safety. The groups should work together to address these issues and to provide support and resources to the community. **Health and Safety:** This includes issues such as mental health, physical health, and safety. The groups should work together to address these issues and to provide support and resources to the community.
