

Metric Conversion Staircase

How to use the Staircase:

- If you go **DOWN** the stairs, move the decimal to the **RIGHT** or multiply by 10
 - *the number must get larger*
- If you go **UP** the stairs, move the decimal to the **LEFT** or divide by 10
 - *the number must get smaller*

*You can substitute any metric measure in for metre (e.g., litre, gram etc)
