

Name _____

Date _____

Make a Proportion

In each set you will be given four numbers. Use the numbers to create an equivalent proportion.

Completed Example

$$\begin{array}{l} 3, 2, 9, 6 = \\ \text{Given} \end{array} \quad \begin{array}{l} 2:6 = 3:9 \\ \text{Proportion} \end{array}$$

Given	Proportion
9, 5, 27, 15	
16, 4, 8, 2	
7, 10, 60, 42	
12, 144, 1, 12	
7, 8, 24, 21	
1, 6, 2, 3
