## Cause and Effect

A **cause** is something that makes something else happen. It answers the question "Why did this happen."

An **effect** is what happens as a result of the cause. It answers the question "What happened."

 Write a sentence to show the relationship between the cause and effect..

Example: **CAUSE:** Lisa missed the school bus.

**EFFECT:** Lisa was late for school.

Lisa was late for school because she missed the school bus.

1. **CAUSE:** Joe left his backpack at school.

**EFFECT:** Joe didn't finish his homework.
