Connective Tissue Identification Worksheet: Using the slides on the Virtual Microscope (Supporting tissue and muscle) complete the following table.

		Fundamental cell type		Fibers	
Tissue Type	General appearance	Description of	Power	Arrangement of	Power
		appearance	visible	Fibers	visible
		Fibroblasts:			
Adipose tissue					
		Fibroblasts:			
Loose (areolar) connective tissue					
Dense regular connective tissue (tendon)		Fibroblasts			
Elastic cartilage		Chrondroblasts:			
Liastic car mage					
		Chrondroblasts:			
Fibrocartilage					
11. 12. 13.		Chrondroblasts:			
Hyaline cartilage
