Summer, 2010

Dear Parents/Guardians,

Your child has worked very hard this year on the 2nd grade math curriculum and he or she should feel very proud. The 2nd grade teachers have had so many wonderful things to share about their students. In a few short months, your child will be entering 3rd grade and encountering new math adventures and challenges. Students who know their basic facts are better able to solve problems in all areas of math. Current research documents that developing fluent recall of the basic facts allow students to focus more on complex computations, problem-solving, And higher order math concepts.

If the teachers at the Delran Intermediate School had one wish, it would be that the students would know their math facts without hesitation in September. Therefore it is important for your child complete the mandatory open quotations summer math packet). This package is designed to help master the basic addition and subtraction facts. It is a great way to improve math skills. Remember math is everywhere... you just have to look for it!

We wish you a terrific and fun-filled summer!

Sincerely,

The Third Grade Teachers

Jennifer M. Lowe
Principal

Amy M. Rash
Assistant Principal

Wendy DeCaris
Supervisor of Mathematics K-12
