

Subtracting Integers

Directions: Color your integers red and your positive numbers yellow.

1. Put your yellow chips in first
2. Put the same number red and yellow chips as your second number of the equation
3. Take out your red chips

$$1. 3 - (-2) =$$

$$2. 8 - (-12) =$$

$$3. 12 - (-4) =$$

$$4. 8 - (-11) =$$

$$5. 5 - (-12) =$$
