Subtracting Integers

Directions: Color your integers red and your positive numbers yellow.

- 1. Put your yellow chips in first
- 2. Put the same number red and yellow chips as your second number of the equation
- 3. Take out your red chips

$$1.3 - (-2) =$$

$$2.8 - (-12) =$$

$$3.12 - (-4) =$$

$$4.8 - (-11) =$$

$$5.5 - (-12) =$$
