	ET	NAME:
Elements of design are the designer has the elements.		Just like the carpenter has a hammer and sav
2. There are 4 elements of design:		
A	В.	
C	C.	
3. The functions of straight or curved line		
Α	Y1	
В		
C		
C		
D4. The 4 types of line are		
D		
D4. The 4 types of line are		_ (parallel to the ground)
D		_ (parallel to the ground) _ (perpendicular to the ground)
D		_ (parallel to the ground) _ (perpendicular to the ground) _ (forms an angle with the ground)
D		_ (parallel to the ground) _ (perpendicular to the ground) _ (forms an angle with the ground)
D		_ (parallel to the ground) _ (perpendicular to the ground) _ (forms an angle with the ground)
D	::	_ (parallel to the ground) _ (perpendicular to the ground) _ (forms an angle with the ground) _ (part of a circle; an arc)

In nature, horizontal lines might be found in:
