

one sure thing about fathers

A father is often a kind and good man
Who helps you to thrive as well as he can

A helpful father always does his best
He never ever seems to rest

Fathers try to help you do better
He probably taught you your alphabet letters

But fathers are human, they make mistakes too
Sometimes they might get angry at you

Sometimes you might also get mad at Dad
For forgetting your birthday or making it bad

But even when he's too much to endure
Your father loves you, that much is sure
