

# HUMAN CELL

Color the parts of the cell. Use the words in the box below to identify the part of the human cell. The cell is the basic unit of a human body. There are more than one billion cells in each human body. Cells group together to make skin, bones, and blood. Inside the cell's nucleus is DNA, which identifies the color of hair, eyes, and skin. DNA also affects the way we look and act.

Cell Vocabulary:	
1. Nucleolus	7. Golgi-Complex
2. Nucleoplasm	8. Smooth Endoplasmic Reticulum
3. Mitochondrion	9. Cell Membrane
4. Nucleus	10. Vesicle
5. Cytoplasm	11. Rough Endoplasmic Reticulum
6. Ribosome
