Find the Missing Number

1 )  $N + 15 = 43$      $N = \underline{\quad}$       2 )  $N + 27 = 54$      $N = \underline{\quad}$

3 )  $N - 10 = 2$        $N = \underline{\quad}$       4 )  $N \times 16 = 576$      $N = \underline{\quad}$

5 )  $N \div 35 = 40$      $N = \underline{\quad}$       6 )  $N - 32 = 5$        $N = \underline{\quad}$

7 )  $N + 36 = 47$      $N = \underline{\quad}$       8 )  $N + 28 = 42$      $N = \underline{\quad}$

9 )  $352 \div N = 16$      $N = \underline{\quad}$       10 )  $N \div 35 = 18$      $N = \underline{\quad}$

11 )  $1295 \div N = 37$      $N = \underline{\quad}$       12 )  $N \times 30 = 1020$      $N = \underline{\quad}$

13 )  $N \times 38 = 912$      $N = \underline{\quad}$       14 )  $N + 33 = 65$        $N = \underline{\quad}$

15 )  $36 \times N = 972$      $N = \underline{\quad}$       16 )  $30 \times N = 420$      $N = \underline{\quad}$

17 )  $1092 \div N = 39$      $N = \underline{\quad}$       18 )  $N + 29 = 44$        $N = \underline{\quad}$

19 )  $N - 14 = 24$        $N = \underline{\quad}$       20 )  $32 \times N = 544$      $N = \underline{\quad}$

21 )  $1026 \div N = 27$      $N = \underline{\quad}$       22 )  $N - 23 = 13$        $N = \underline{\quad}$

23 )  $37 - N = 8$          $N = \underline{\quad}$       24 )  $29 - N = 2$          $N = \underline{\quad}$
