

I would use a
0 - 100 number line
to hop along.

Try these:

1. $16 \div 2 = \square$

2. $25 \div 5 = \square$

3. $22 \div 2 = \square$

4. $45 \div 5 = \square$

5. $70 \div 10 = \square$

6. $35 \div 5 = \square$

7. $14 \div \square = 2$

8. $10 \div \square = 10$

9. $18 \div \square = 3$

10. $44 \div \square = 4$

11. $26 \div 2 = \square$

12. $27 \div 3 = \square$
