**Math Practice: Measuring Angles (4.MD.6)**  
In Whole Number Degrees

Using a protractor, measure the angles.

$\angle ABC =$  \_\_\_\_\_

$\angle DEF =$  \_\_\_\_\_

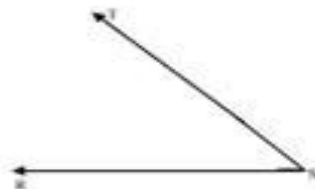

$\angle GHI =$  \_\_\_\_\_

$\angle IJK =$  \_\_\_\_\_

$\angle PQR =$  \_\_\_\_\_

$\angle RST =$  \_\_\_\_\_

Sketch each angle measurement using a protractor.

$\angle CDE = 45^\circ$

$\angle ABC = 135^\circ$
