

## Four Year Academic Planning Worksheet

Work backwards from when you plan to graduate. Start by filling in 1) the years, then 2) the application process (standardized tests, applications, letters of recommendation, interviews), and finally 3) the prerequisite courses you need to complete before taking tests or applying. Check to be sure your courses are in the correct sequence and are a reasonable course load. Be sure to schedule in the assessment or placement exams you are required to take.
