

### Drawing Lines (in the next half) Centimeter

You need a ruler with centimeters and millimeters on it.  
Draw these lines to the nearest half centimeter.

Remember:  $4\frac{1}{2}$  cm is written as 4.5 cm  
or 4 cm and 5 mm

Draw lines these lengths, starting at the dot on each question:

1. 3.5 cm      •
2. 4.5 cm      •
3. 6.5 cm      •
4. 7.5 cm      •
5. 4.8 cm      •
6. 1.5 cm      •
7. 8.8 cm      •
