

WHO STOLE MISS BRENDA'S BIRTHDAY CAKE?!

	Lounge	Tech Center	Learning Ctr	Games Room	Teen Room	Art Room	Spork	Spatula	Mixer	Fingers	Whisk	Knife
Ms. A												
Mr. P				X								
Ms. D												
Mr. M												
Ms. K												
Ms. L												
Spork												
Spatula												
Mixer												
Fingers												
Knife												
Whisk												

Instructions:

Each staff was discovered in a room with a utensil. No staff, rooms or utensils were repeated.
 As you investigate, you will discover a new clue in each room. Use this chart to record the clues that you receive.
 Mark which staff, utensil and room belong together with an X. Color in any combinations that are not possible.
 As you record your clues, you will learn where staff were discovered after the crime and what utensil they had with them.
 This chart must be complete before you guess who stole Miss Brenda's cake!

Clues to Begin:

1. Mr. P was in the Games Room.
2. Mr. M was in the same room as the Whisk.
3. The Spork was discovered in the room that is closed on Tuesdays.

Example:

Since Mr. P was in the games room, and only one staff was found in the games room, you can color in any other staff/games room combination.
 Also, since Mr. P was in the games room, and he can't be in more than one place at a time, you can color in any other room that Mr. P would have been.
 If he was in the games room- then he wasn't in another room, and if he was in the games room, no other staff was there.
