

Name _____ Date _____

● Pedicabs for Hire: Activity Sheet

Compare and contrast the two ads. They show information from competing pedicab companies.

Use the Data

1. What does a tour for $1\frac{1}{2}$ hours cost with Pat's Pedicabs? _____
2. What does that same tour cost with Cal's Comfy Pedicabs? _____
3. What is the difference in price for a 2-hour tour, with a blanket, with both companies? _____
4. What is the total cost of a 3-hour tour with Pat's company, including a \$10 tip? _____
5. What is the cost of a 3-hour tour with Cal's company, including a 10% tip? _____

Complete the Table

Hal's Happy Cabs is another pedicab company. Here are Hal's prices:

- \$15 for the first half hour
- \$6 for each additional half hour
- \$1 tip per hour for the driver

Use the data from the ads and the new data to complete the table. For example, for 1 hour,

- Pat charges $\$12 + \$7.50 = \$19.50$.
- Cal charges \$30.
- Hal charges $\$15 + \$6 + \$1 = \22 . (Don't forget the tip!)

Pedicab Company	Cost for 1-hour tour	Cost for 2-hour tour	Cost for 3-hour tour	Cost for 4-hour tour	Cost for 5-hour tour
Pat's Pedicabs	\$19.50				
Cal's Comfy Pedicabs	\$30				
Hal's Happy Cabs	\$22				

Write About It

Study the data your table shows. Look for patterns as the costs increase. On the back of this page, describe the patterns you see.
