

Simple Algebra Answers

Solve equations where $n=12$, $x=7$ and $s=2$.

AMC4-4

1. $8 + n = \square$

b. 20

2. $17 - s = \square$

b. 15

3. $3 \times n = \square$

c. 36

4. $s + 40 = \square$

d. 42

5. $49 \div x = \square$

b. 7

6. $15 \times s = \square$

a. 30

7. $29 - x = \square$

d. 22

8. $24 \div \square = n$

b. 2

9. $14 + s = \square$

c. 16

10. $10 - x = \square$

a. 3
