

General Chemistry I Test Bank

Christopher King
Department of Chemistry
Troy University
Troy, AL 36082
cking@troy.edu

This document contains 256 test questions and answers that I have used during the past decade. Some of the equations were created using MathType equation editor 5.1. This is an upgrade to the equation editor that comes with Word. I got it so that the equations could be displayed in a blue font (I show answers in blue on my web pages). To modify the equations, you will need to get the MathType free upgrade (<http://www.dessci.com/en/>). If you don't purchase the upgrade, you can only change colors for the first 30 days.
