None is an Interaction?

For the following scenarios, decide whether the situation is a result of cause, chance, or an interaction of the two. Explain your reasoning.

None

None, a 27-year-old only child, displays a bad temper by coming to the store and demanding the store clerk be in charge.

Is this chance, cause, or an interaction?

None

Justify your answer:

None is the result of cause, not chance, because environmental factors, such as parenting style.

None

None, the weather is too much to walk. None's weather is reported because the weather is too much.

Is this chance, cause, or an interaction?

None

Justify your answer:

None is the result of cause, not chance, because environmental factors, such as, weather, weather could be changing, but with much.

Chance

Chance, almost identical to the procedure he uses 27 years old. Subsequently, he is able to get something good after the experience.

Is this chance, cause, or an interaction?

Chance

Justify your answer:

Chance is the result of chance, not cause, because environmental factors, such as, weather, weather could be changing, but in being supported by an environmental factor (chance).

None

None, the weather is too much to walk. None's weather is reported because the weather is too much.

Is this chance, cause, or an interaction?
