None is an interaction?

For the following scenarios, decide whether the variable is a result of cause, chance, or an interaction of the two. Explain your reasoning.

None

None, a 27-year-old only child, develops a bad temper by moving to the city and attending the state school he is going to.

Is this cause, chance, or an interaction?

None

Justify your answer:

None is the result of cause, chance, or an interaction of the two.

None

None, the weather gets much warmer. None's weather is changed because the weather got much warmer.

Is this cause, chance, or an interaction?

None

Justify your answer:

None is the result of cause, chance, or an interaction of the two.

None

None, almost identical to the procedure he uses 10 years old. Subsequently, he is able to get something done after the experience.

Is this cause, chance, or an interaction?

None

Justify your answer:

None is the result of cause, chance, or an interaction of the two.

None

None, the weather gets much warmer (None's weather).

Is this cause, chance, or an interaction?
