Welcome to my blog

My best childhood memory is about my best friend from school, Tom. When we met, he was six and I was six too. We were in the same class in school. We sat together and always played together in the break. His family lived near my family, so we saw each other after school most days. In the summer, we went swimming in the ocean when the weather was hot. In the winter, we played video games a lot and stayed home watching TV. When his family moved to another city, I was very sad. I'll never forget the times we spent together.
