| j. Live content | q. _____ |

10. Read the e-mail to the company's website. The writer is sending the e-mail to the environment board.

Cherise
17th June Monday, 20th September

Hi, I'm Cherise and this is my 3rd message to the board. Let me tell you something about myself. I'm 16 and I live with my family in London. Our job is to filter and to make and we're not an internet shop. My dad's name is Mike. I like to go to school every day (Monday and Tuesday) and I like an internet site called "The Web".

I'm writing this message to you because I'm very interested in the environment. At school at the moment we're studying the problems of pollution in the world. I like that because the atmosphere is essential because we've only got one planet. We don't want to change to other planet, gas, and planets. Do you know what planet is called? What other things can we do to help the environment?
