

## Solving Quadratic Equations (A)

Solve each equation for x

1.  $x^2 - 5x - 6 = 0$

7.  $x^2 - 8x - 9 = 0$

2.  $x^2 + 8x + 16 = 0$

8.  $x^2 - 7x - 18 = 0$

3.  $x^2 - 4x - 5 = 0$

9.  $x^2 + 9x + 14 = 0$

The image shows a large, mostly obscured area containing faint mathematical equations and text, possibly a scan of a worksheet or a redacted page. The text is illegible due to low contrast and blurring. Some faint text is visible, including "over" and "18".
