

Practice Skills

Review the Problem Solving Strategy

Read the problem carefully and underline key information.

- 1. **Identify** the problem-solving strategy you will use to solve the problem. Write down the strategy you will use and explain why you chose it.

- 2. **Organize** the information you are given and write down what you know.

- 3. **Plan** the steps you will use to solve the problem. Write down the steps you will use to solve the problem.

- 4. **Execute** the plan you wrote down. Write down the steps you used to solve the problem.

- 5. **Check** your work. Write down the steps you used to check your work.

Complete the problem.

$100 + 100 = 200$

$100 + 100 + 100 = 300$

$100 + 100 = 200$

$100 + 100 + 100 + 100 = 400$

$100 + 100 + 100 + 100 + 100 = 500$

$100 + 100 = 200$

$100 + 100 = 200$

$100 + 100 + 100 + 100 + 100 = 500$
