

Layers of the Atmosphere Foldable

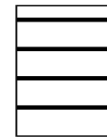

Name _____ Class _____

1. Fold a piece of light blue paper in half hamburger bun-style.
2. Open flat and then fold each side toward the center fold; shutter style.
3. Carefully cut out the diagram of the atmosphere.

Paste onto the front shutters of the light blue paper.

4. Add a title to the front of your foldable.
5. On the inside, color each fold line.
6. Add one extra line one inch from the top of the inside. (Fig. 2)
7. Next, on the inside, copy the height in kilometers on one side

(Fig. 2)

8. Cut out the boxes that contain the characteristics of each of the layers of the atmosphere. Paste them inside the foldable within the correct layer.
9. Carefully cut out the small sketches **ONE AT A TIME**. Using the height the object is found, paste them in the correct layer inside the foldable.
10. Fill in the chart below and paste it on the back of the foldable.

Which Layer Has The...	Write your answer here:
Highest Temperature?	
Lowest Temperature?	
Contains most Clouds and WEATHER?	
Airplanes fly?	
All satellites?	
Thickest Layer?
