

Event: Time to Measure (with standard units of measurement)

1. Read a story aloud.
2. Using each of the six standard units of measurement (inches, cubes, and pennies), measure the train.
3. Write your answers in the table on the worksheet.
4. Repeat for each of the four cards.
5. Answer the questions about the train.

Event: Time to Measure

Train Number	Length (inches)	Length (cubes)	Length (pennies)
1			
2			
3			
4			
5			
6			

How many inches long is the train? _____

How many cubes long is the train? _____

How many pennies long is the train? _____

How many inches long is the train? _____
