

Name:

Comprehension Check Polar Bears

Read the passage and answer the questions below.

Polar bears live in the Arctic. They have a white fur coat and thick fat called blubber to keep them warm in the cold. Polar bears like to eat seals. They will also eat walruses, small mammals, birds, fish, and some plants. Female polar bears have babies in the Winter and usually have two cubs. The cubs stay with their mother for 2 years to learn how to survive in the Arctic.
