

Dividing a 2-Digit number by a single digit (up to 81)
with a remainder (long division)

$$\begin{array}{r} 5 \overline{)76} \\ \end{array}$$

$$\begin{array}{r} 3 \overline{)83} \\ \end{array}$$

$$\begin{array}{r} 4 \overline{)61} \\ \end{array}$$

$$\begin{array}{r} 5 \overline{)79} \\ \end{array}$$

$$\begin{array}{r} 6 \overline{)81} \\ \end{array}$$

$$\begin{array}{r} 3 \overline{)47} \\ \end{array}$$

$$\begin{array}{r} 7 \overline{)93} \\ \end{array}$$

$$\begin{array}{r} 8 \overline{)98} \\ \end{array}$$

$$\begin{array}{r} 6 \overline{)75} \\ \end{array}$$

$$\begin{array}{r} 4 \overline{)67} \\ \end{array}$$

$$\begin{array}{r} 9 \overline{)96} \\ \end{array}$$

$$\begin{array}{r} 8 \overline{)95} \\ \end{array}$$
