

PRE-/POST-TEST

Nutrition Labeling Test

Fill in the Blank

Read the hot dog ("frank") label and answer the following questions.

- How many hot dogs equal one serving? _____
- How many calories are in two hot dogs? _____
- One serving of hot dogs provides what percent of recommended fat intake for a person eating a 2,000 calorie diet? _____
- List the ingredient in the hot dog which is present in the largest amount by weight. _____
- What foods would complement the nutrient value of the hot dog? _____

Multiple Choice

Circle the correct answer to the following questions about the new nutrition label.

- Dietary recommendations for total fat, saturated fat, dietary fiber and protein are:
 - based on the number of calories a person eats
 - the same for all diets
 - only important to those people who have health problems
- Adding the _____ of an individual nutrient for foods eaten in one day is a quick way to see if a person's daily diet is meeting nutrition recommendations for that nutrient.
 - grams
 - milligrams
 - % Daily Values
- The serving sizes of similar food products are based on:
 - the amount customarily consumed
 - food manufacturer recommendations
 - the size of the package
- Health claims are:
 - allowed on all foods
 - based on scientific research
 - often untrue
- Fat content claims can:
 - help a person choose foods with less fat
 - only be listed on a package if a food meets strict government definitions
 - both a and b
- Which foods can be a part of a healthful diet?
 - only those foods that have nutrient content and health claims on the package
 - only those foods that have less than 30 percent of their calories from fat
 - all foods
- Food additives:
 - often occur naturally in common foods
 - must pass safety tests
 - both a and b

Nutrition Facts		
Serving Size: One Frank (45 g)		
Servings Per Container: 10		
Amount Per Serving		Calories from Fat 15
Calories 45		% Daily Value*
Total Fat 1.5g		2%
Saturated Fat 1g		5%
Cholesterol 15mg		5%
Sodium 430mg		18%
