A Scary Day

I thought it could be an electrical issue. I just panicked. In the hurry, I ran outside, got into the car and drove to the local police station. Hearing my complaint, the police officers lost their patience and told me to call electrical guys. They also helped me by giving a phone number to a nearby electrician.

1. I was calm and did not panic (True / False)
2. Did i drive a truck or a car?
3. Whom did you the police offices call?
4. Did i get any other help from the police officials?
