

#1. Walking around at the zoo in July, your cheeks turn red and you sweat. Get out the door!

#2. While cooking macaroni and cheese, you accidentally touch the burner. Ouch!

#3. You come inside on a hot summer day & open the freezer to get a popsicle. When you open the freezer door, cold "mist" comes out & drops to the floor.

#4. You go to a friend's house and have to sleep in the attic. It's burning up in there, so you have to use a fan!
