Adding Doubles + 1

60 Follow these steps to solve doubles plus one problems.

- 1. Circle the smallest digit in the problems.
- 2. Double the smallest number.
- 3. Add $\underline{1}$ to the answer.

Example: 4 + 5 = ____

- 1. Circle the smallest digit. ①+5=___
- 2. Double the smallest number. 4 + 4 = 8
- 3. Add 1 to the answer. 8 + 1 = 9
