

Games that April Likes

April likes to play. She likes to play in the mud, climb trees,	13
and build things. These are things that many boys like also. But	25
April knows she is not a boy. In fact, she loves being a girl! She	40
loves to play dress-up, loves her cute teddy bears, and likes to	53
play with her long hair. When she plays with her hair, she can	66
make it look really pretty.	71
But there are some games that April will not play with other	83
girls. April does not like to play with dolls, pick pretty flowers, or	96
play with tea sets. There are also games that April does not like to	110
play with boys. For example, she does not like to wrestle or play	123
with toy guns. The games that April loves the most are tag and	136
hide-and-seek. In these games, many boys and girls can play	148
together and all have fun. April likes games the most when all kids	161
can play together.	164
