## ALGEBRA (DAY #2)

## Read first:

The *Timpo Pet Show* is scheduled for June 3<sup>rd</sup>. Andrea wants each of her pet rabbits to look perfect. She plans on putting a bell on each one's tail and little yellow bow on their ears.

A. If she has 3 rabbits, how many bells and bows will she need?

If she has: | she'll have: | and she'll have: |

If she has:	she'll have:	and she'll have:
1 rabbit	1 bell	2 bows
2 rabbits	2 bells	4 bows
3 rabbits	bells	bows

**B.** If she has 5 rabbits, how many bells and bows will she need?

If she has:	she'll have:	and she'll have:
1 rabbit	1 bell	2 bows
2 rabbits	2 bells	4 bows
3 rabbits	bells	bows
4 rabbits	bells	bows
5 rabbits	bells	bows

**C.** If she has 7 rabbits, how many bells and bows will she need?

If she has:	she'll have:	and she'll have:
1 rabbit	1 bell	2 bows
2 rabbits	2 bells	4 bows
3 rabbits	bells	bows
4 rabbits	bells	bows
5 rabbits	bells	bows
6 rabbits	bells	bows
7 rabbits	bells	bows
