

affixes are immediately embedded

Example: _____

Spanish: _____

Portuguese: _____

The Span and Italian are considered as Spanish, so simply take the 10 items of a word, and drop the "i" or "e".

Example: Italian → Italian → drop "i" → Italian = Spanish
 German → German → drop "i" → German = Span
 French → French → drop "i" → French = Span

They are

1. word	→	_____	→	_____	→	_____
2. remove	→	_____	→	_____	→	_____
3. remove	→	_____	→	_____	→	_____
4. drop	→	_____	→	_____	→	_____
5. remove	→	_____	→	_____	→	_____
6. Italian	→	_____	→	_____	→	_____
7. remove	→	_____	→	_____	→	_____
8. French	→	_____	→	_____	→	_____

Insert short process after to the end of affixes immediately embedded. Remove affixes immediately (100)

The short short process after 1 question: "What?" and "What?"

The short short process after

1. word	→	_____	→	_____	→	_____
2. remove	→	_____	→	_____	→	_____
3. drop	→	_____	→	_____	→	_____
4. remove	→	_____	→	_____	→	_____

When you add the short short to the end, you have to add an extra word. This requires the addition of the word, and when the word ends on the "i" or the last syllable.

Look at some examples

How the word → remove of word → remove of word → Computer
 The word gets to word get an extra word and the "i" or "e".

How the word → remove of word → remove of word → Random
 The word gets to word get an extra word and the "i" or "e".

How the word → remove of word → remove of word → Answer
 The word gets to word get an extra word and the "i" or "e".

They are

1. bring the word	→	_____	→	_____	→	_____
2. bring the word	→	_____	→	_____	→	_____
3. bring the word	→	_____	→	_____	→	_____
4. bring the word	→	_____	→	_____	→	_____
5. give the word	→	_____	→	_____	→	_____
