

Distance Vs. Time Graph

The distance Vs. time graph for a girl on a bicycle ride is shown in the figure above.

- How far did she travel? _____
- How long did she take? _____
- What was her average speed in km/h? _____

- How many stops did she make? _____
- How long did she stop for altogether? _____
- What was her average speed excluding stops? _____

- How can you tell from the shape of the graph when she travelled fastest?
Over which stage did this happen? _____

This figure shows the distance - time graph for a moving object.

Describe the motion, if any, of the objects in the regions:

- UV: _____

- VW: _____
