### **Career and Family Leadership Lesson Plans**

The development of these lesson plans for the Career and Family Leadership high school semester course was initiated as part of a course in Curriculum Development for Family and Consumer Sciences Education offered in the fall of 2003 through Central Missouri State University. The first course session was held in conjunction with the MoEFACS Summer Inservice Conference in July of 2003, with a follow-up session in October of 2003 at the Lake of the Ozarks.

Participating teachers began development of these lessons during the initial session at summer conference. Those teachers electing to take the course for graduate or undergraduate credit continued the development during the October follow-up session. All lessons were finalized by Irene Storrer, Family and Consumer Sciences Consultant from Lyndon, Kansas, who also served as instructor for the course.

Many thanks to Irene Storrer and the following Missouri Family and Consumer Sciences teachers who participated in the summer conference and follow-up sessions and contributed to the development of these lesson plans:
